Geography: Europe is the second smallest continent in size but the third largest in population. The European continent houses 50 countries. Use the extra resources to help complete these tasks:

- Label the blank map of Europe. How many countries can you identify?

- Comparing countries to the UK: Using this website: <https://www.kids-world-travel-guide.com/europe-facts.html> or others, research a country to compare to the UK.

Use the 'Investigation of European Countries' grid to write a travel guide about your country: Capital City - Population - Interesting Facts - Distance from the UK - currency - mountains - coastlines - languages - lakes - history - settlements etc Which countries have active volcanoes?

<https://www.learning4kids.net/2012/04/11/how-to-make-a-homemade-volcano/> and make your own!

Is climate the same in different countries of Europe?

The Continent of Europe

Computing: The internet is great as it helps you communicate with people in different countries, all over Europe. However, it can be dangerous. Can you create a You Tube video that tells people how to stay safe when communicating online? You could ask a grown up to record your video and send it to us to watch! Here's some examples:

Design and Technology

Create your own coastline! Using your map skills, find a coastline in Europe and recreate it using materials you have at home (newspaper/paint/recycled goods/lego). Before creating your design, you will need to research your coastline to know what human and physical features to include!

Research and discover a variety of delicious European dishes and practise your cooking skills. What tickles your fancy? Why not make your own pizza and choose your favourite toppings for a taste of Italy?
