

Year 3 Autumn 2 Homework Project

We would like to invite you to create a project about one of our topics from this half term and bring it into school on **Monday 18th December** to show your classmates!

You could create a PowerPoint presentation, an interactive poster, a 3D model or even a comic strip! It is completely your choice how you decide to present your learning. Please note, if you decide to create a PowerPoint presentation, this will need to be emailed in advance or alternatively, you could save it to a USB stick and bring this into school.

This half term, our topic is called 'Understanding Us'. Some of the things we are learning about are:

- The United Kingdom in Geography
- Food and Nutrition (Healthy and Varied diets) in Design Technology
- Animals (including humans) in Science
- Stop-frame animations in Computing

Some ideas:

- Design and create your own local landmark
- Find out about the human and physical features of your local area
- Plan and cook a healthy meal and then tell us all about it 😊
- Create a poster about your favourite animal we have learnt about in school
- Create a storyboard for a stop-frame animation about a topic of your choice
